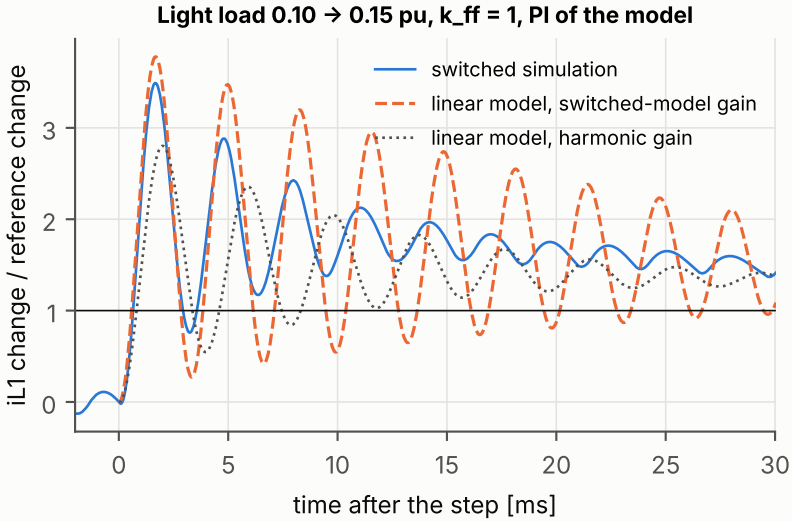
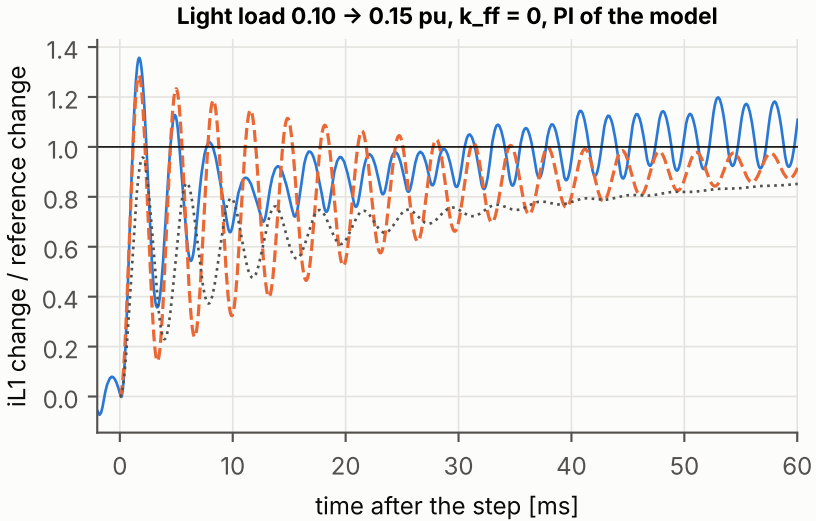
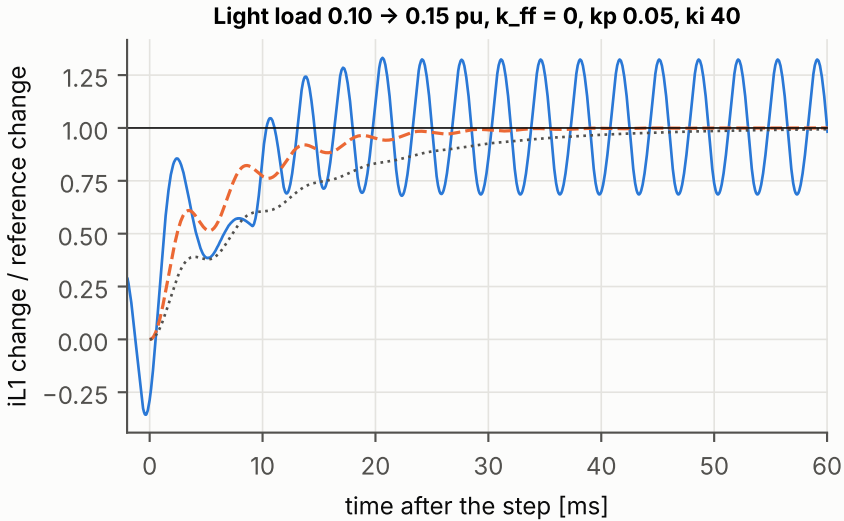
Full load 0.90 → 0.95 pu, k_ff = 1, PI of the model
switched simulation
linear model
iL1 change / reference change
time after the step [ms]



Light load 0.10 → 0.15 pu, k_ff = 1, PI of the model
switched simulation
linear model, switched-model gain
linear model, harmonic gain
iL1 change / reference change
time after the step [ms]



Light load 0.10 → 0.15 pu, k_ff = 0, PI of the model
iL1 change / reference change
time after the step [ms]



Light load 0.10 → 0.15 pu, k_ff = 0, kp 0.05, ki 40
iL1 change / reference change
time after the step [ms]
